Technical Data Sheet

BEST

Designer: Z Design Team

Best waiting area unit is a comfortable, simple and convenient design especially suited to offices, hospitals, schools and terminals. Best waiting area unit is available in two and three-seater versions, and the number and location of the coffee tables can be customized according to needs.

MATERIALS

METAL STRUCTURE

Metal Leg is a metal profile pipe made of DKP sheet with Q32mm diameter and 1.5mm wall thickness. The middle metal joint, which connects the seats, is made of a 60x40 mm metal profile with a wall thickness of 2 mm, which is shaped and drawn in special molds. Seats are connected to the metal leg with 170x170x5mm sheet metal material. The shoe, which is connected to the foot with M8 connection bolt on the surfaces of the feet in contact with the floor, is made of hard plastic material and chrome detailed part on it. The articulated shoe adapts to the desired angle. All metal parts are painted with 90 micron thick textured electrostatic powder paint.

FRAME

Monoblock body upholstered with fabric or artificial leather over 55 kg/m³ density polyurethane cast foam formed in special molds. 5mm and 10mm transmission shaft and 20x5mm, 20x3mm sized metal slats are used in the polyurethane inner metal skeleton.

COFFEE TABLE MODULE

The coffee table top is manufactured by lacquer painting on raw MDF with a wall thickness of 18mm in 400x250 mm dimensions. The coffee table module can be disassembled and connected to the head and end area of all metal constructions. The coffee table top is assembled by connecting the 60x40mm sized metal profile to the legs.

ACCESSORY

A 25-mm snap-on leg glide made of hard plastic is used when the product comes into contact with the floor.

AREA OF USE

Best Lobby is designed for offices, hospitals, schools, terminals and new workspaces.

DESIGNER / COLLECTION

Best Waiting Area Group was designed by Z Design Team. It was designed for 2022/2023 collection.
