

MIO WORKSTATIONS

Technical Data Sheet

MIO WORKSTATIONS

Designer: Klan Studio & Z Design Team

Designed with the most harmonious combination of metal and wood, Mio offers a desk surface that soothes with its simplicity and useful storage options, making it easier to focus in your workspace.

DESCRIPTION

METAL LEGS

The desk legs are made from aluminum material using an injection production method, shaped in special molds. Mio workstations offer storage solutions for different needs, categorized into two types based on the legs. In desks with side-unit legs, short legs made from aluminum material using an injection molding method in special molds are used. Thanks to the side-unit legs, Mio storage group products can be integrated into the desks. They can be painted in any static color from the Zivella Metal Color Chart.

CENTER LEG

Made from DKP steel sheets, shaped in special molds. It is demountable and allows for cable passage. It can be painted in any static color from the Zivella Metal Color Chart.

METAL FRAME

The frame is made from profiles shaped in special molds, sized 50x30x1.5 mm, made from DKP steel sheets. It can be painted in any static color from the Zivella Metal Color Chart.

DESK TOP

The desk top is made from 18 mm thick, melamine-coated particle board. The desk top can be produced in all colors and patterns from the Zivella Particle Board Color Chart.

SEPARATOR

The separator is made from E1 quality 18 mm particle board, upholstered with 1 cm thick foam and fabric material.

ELECTRIFICATION

The metal cable channel and metal separator are produced as a single unit from 1.5 mm thick DKP steel, formed with CNC bending. It is coated with electrostatic oven paint.

ACCESSORIES

Feet: Height-adjustable plastic feet, shaped in special molds, with a Q60 diameter and chrome detailing.

USAGE AREA

Mio İş İstasyonları, ev ve ofislerdeki çalışma alanları için tasarlanmıştır.

DESIGNER / COLLECTION

The Mio Product Group was designed by Klan Studio & Z Design Team for the 2022/2023 collection.

MATERIAL LIBRARY

Zivella; you can access the wood, metal, fabric, and faux leather library using the QR code below.
