

RIO EXECUTIVE GROUP

Technical Data Sheet

RIO EXECUTIVE DESK

Designer: Z Design Team

Produced with melamine and leather options, Rio creates a rich structure in the space. Electrical and data connections are routed through the fixed side storage unit, leaving a clean and functional desk surface.

DESCRIPTION

METAL STRUCTURE

Under the desk top, a metal profile of 40x20x1.5 mm and a 5 mm metal strip are used to provide strength.

WOODEN STRUCTURE

The desk top and legs are made from 30 mm thick, melamine-coated particle board with E1 quality and impact-resistant PVC edges on both sides.

All panels of the side unit are made from 30 mm and 18 mm thick melamine-coated particle board with E1 quality. The drawer bottoms are made from 8 mm particle board.

The side unit top has two recessed hinge systems with working cable covers where cable and socket units can be positioned.

The side unit drawers and doors are handleless. A round plastic cap is used for cable management in the base of the side unit.

UPHOLSTERY

To create a more comfortable working surface, a part covered in leather is applied on top of a 30 mm thick particle board.

ACCESSORIES

Each desk top is demountable, and the parts are connected using Minifix, double-sided Minifix, and dowel connection pieces.

Hard plastic feet are used under the desk legs.

For the side unit doors, 1st quality internal spring hinges from Hafele, some with soft-closing mechanisms, are used.

The drawer slides are soft-closing telescopic slides, 30 cm and 40 cm deep.

USAGE AREA

The Rio Executive Desk is designed for executive offices.

DESIGNER / COLLECTION

The Rio Executive Group was designed by Z Design Team for the 2019/2020 collection.

RIO CONSOLE

Designer: Z Design Team

A stylish option where functionality meets aesthetics.

DESCRIPTION

WOODEN STRUCTURE

The console top and base are made from 18 mm thick, melamine-coated particle board with E1 quality and impact-resistant PVC edges on both sides.

All panels of the console are made from 18 mm thick melamine-coated particle board with E1 quality. The drawer bottoms are made from 8 mm particle board.

The console drawers and doors are handleless.

ACCESSORIES

The connections are made using M68 mm diameter, 10 mm Minifix metal connection mechanisms and 832 mm plastic dowels.

Each door uses 1st quality internal spring hinges from Hafele, one of which has a soft-closing mechanism.

The console base has fixed plastic supports made from plastic material.

USAGE AREA

The Rio Executive Console is designed for executive offices.
