

# MILA WORKING BOOKSHELVES

Technical Data Sheet

# MILA WORKING BOOKSHELVES

Designer: Adnan Serbest

Bookshelf units, which can be produced in different sizes and color combinations, are packaged as demountable parts and provide functional use in homes and offices.

## EXPLANATIONS

### METAL STRUCTURE

The metal legs are made from 20x20 mm metal profiles with a thickness of 1.5 mm, shaped in special molds from DKP sheet metal. All metal parts are coated with 90-micron thick textured (pebbled) electrostatic powder paint.

### WOODEN STRUCTURE

The shelves, tabletop, back panels, and mini cabinet used between the shelves are made from 18 mm thick E1 quality particle board, melamine-coated on both sides.

### ACCESSORIES

Feet: The adjustable feet are made from plastic material and produced via injection molding. They are height-adjustable M6 bingo feet.

The connection of all panels is made using M6x8 mm diameter, 10 mm double-sided Minifix metal connectors and 8x32 mm plastic dowels.

The mini cabinet door has two first-quality internal spring hinges. There is no handle on the door, and it opens and closes using a plastic push-to-open mechanism.

### USAGE AREA

The Mila Working Bookshelves are designed for workspaces such as offices.

### DESIGNER / COLLECTION

The Mila Working Bookshelves were designed by Adnan Serbest for the 2022/2023 collection.

### MATERIAL LIBRARY

Zivella; you can access the wood, metal, fabric, and faux leather library using the QR code below.
