Technical Data Sheet

PAL

Designer: Tanil Çokşenim

The Pal product range combines comfort and elegance with its soft forms and padded construction. Bringing fresh experiences to diverse settings with various leg choices.

DESCRIPTIONS

UPHOLSTERY

The back, headrest, and seat sections are made of polyurethane cast sponge. The BRK2041 and BRK2044 coded products include a headrest.

METAL LEGS

The legs for BRK2042 and BRK2043 coded products are built of 32 mm thick DKP pipes. The legs are connected to each other with 25 mm thick DKP pipes. A height-adjustable bingo leg shoe made of hard plastic is utilized where the product comes into touch with the floor.

STAR LEGS

The leg of the product coded BRK2044 is constructed of aluminum that has been molded in unique molds. The connection to the body is made from 5 mm thick CNC-cut DKP sheet metal.

PIPE LEGS

The legs for BRK2040 and BRK2041-coded products are built of 30 mm DKP pipe. A height-adjustable bingo leg shoe made of hard plastic is utilized where the product comes into touch with the floor.

AREA OF USE

Pal is suitable for indoor office waiting spaces, executive rooms, and, if desired, the home environment.

DESIGNER / COLLECTION

The Pal Product Range was designed by Tanil Çokşenim for the 2024/2025 collection.
