

FOLD FOLDING TABLE

Technical Data Sheet

FOLD FOLDING TABLE

Designer: Z Design Team

Fold tables can be arranged in different configurations based on the number of people and the intended use, making them suitable for meetings, training sessions, and seminars. The tables can be connected to each other using a connector accessory, locked with wheels, easily transported, and folded for easy storage, saving space.

DESCRIPTION

METAL LEGS

The Fold table legs are made from elliptical special profiles measuring 60x30 mm and Q28x1.5 mm diameter metal tube profiles. All metal parts are coated with a minimum of 90-micron thick textured electrostatic powder paint.

TABLETOP / MODESTY PANEL

Tabletop: The Fold table tops are made from 18 mm thick, melamine-coated E1 quality particle board. The edges of the tabletop are protected with 1 mm thick impact-resistant PVC edge banding. The tabletop is connected to the CNC-bent legs via a Folding Table Mechanism system made from hard plastic materials and metal sheets.

Modesty Panel: The modesty panel of the Fold table is made from 30 mm thick, melamine-coated E1 quality particle board. The edges are protected with 1 mm thick PVC edge banding.

ACCESSORIES

Wheels: The table uses movable wheels made from polypropylene plastic material with a diameter of Q60 mm and equipped with a lockable mechanism.

Connections: The tabletop is mounted to the legs using screws and metal sheets. The tables can be connected to each other using plastic connection accessories under the tabletop.

Folding Mechanism: The Folding Table Mechanism is made from metal sheets and hard plastic materials. The pull handle part is made from a Q25 mm diameter metal profile tube.

USAGE AREA

The Fold Folding Table is designed for indoor spaces such as meeting rooms, executive rooms, and workspaces.

DESIGNER / COLLECTION

The Fold Folding Table was designed by Z Design Team for the 2022/2023 collection
