# LENTA MEETING GROUP

Designer: Alp Nuhođlu

Lenta brings the warmth of wood to workspaces, adding a natural and refreshing atmosphere to its surroundings. By combining soft forms, natural materials, and colors, we created a user-friendly working environment. Lenta is designed for dynamic, high-energy, and non-monotonous workspaces.

## DESCRIPTION

### STRUCTURE

The desk structure consists of 50\*25x1.5 mm profiles; the center legs are made from CNC-cut and CNC-bent sheet metal materials.

For the leg connections, an aluminum injection "U Connection Element" produced in special molds is used, making the legs demountable.

In the high meeting group, the footrest is made from a Q28 diameter metal profile tube with a thickness of 2 mm. The wooden legs are connected using demountable Q60 mm diameter connection elements.

The metal structure is coated with electrostatic powder paint. All metal parts are coated with a 90-micron thick textured (pebbled) powder paint.

### TABLETOP

The tabletop is made from E1 quality, 25 mm thick, melamine-coated particle board with 1 mm thick impact-resistant PVC edging on all four sides.

The bench tabletop is made from E1 quality, 18 mm thick, melamine-coated particle board with 1 mm thick impact-resistant PVC edging on all four sides.

For the high meeting group, the table tops are made from E1 quality, 18 mm thick, melamine-coated particle board with 1 mm thick impact-resistant PVC edging on all four sides.

The color selection for the table tops is available from all melamine colors and veneer options in the Zivella Color Chart.

### WOODEN LEGS

The wooden legs are made from 1st-class kiln-dried solid ash wood. The wooden legs are finished with 3 layers of polyurethane filler varnish and 2 layers of polyurethane matte varnish.

### BENCH UPHOLSTERY

The upholstered part of the bench seat is made from an 8 mm thick panel material, covered with 2 cm thick 28 DNS gray foam and fabric.

### ACCESSORIES

Height-adjustable bingo feet, made from polypropylene plastic, are used under the legs. Plastic cable covers are provided on the tabletop to allow cable management.

### USAGE AREA

Lenta Meeting Group is designed for indoor spaces such as work areas.

### DESIGNER / COLLECTION

Lenta Meeting Group was designed by Alp Nuhođlu for the 2022/2023 collection.

### MATERIAL LIBRARY

Zivella; you can access the wood, metal, fabric, and faux leather library using the QR code below.

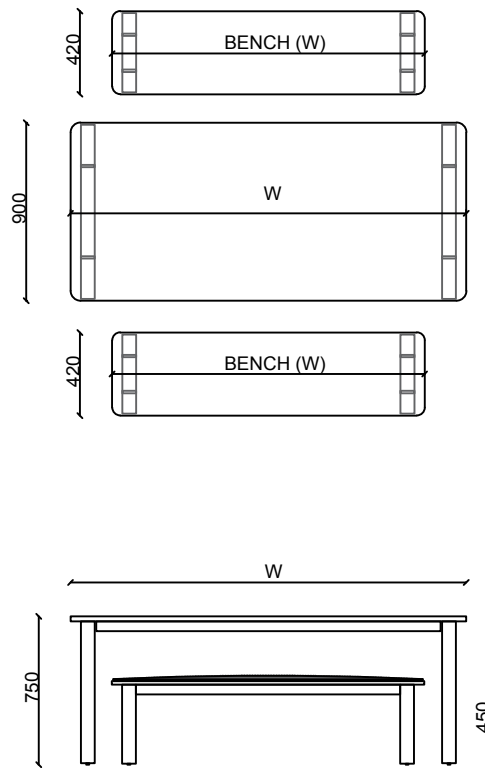

Material Catalog

## LENTA MEETING GROUP

### DIMENSIONS

	Depth	Width	Height
- LNT90170	900 mm	1700 mm	750 mm
- LNT90180	900 mm	1800 mm	750 mm
- LNT90190	900 mm	1900 mm	750 mm
- LNT90200	900 mm	2000 mm	750 mm
- LBN42138	420 mm	1380 mm	450 mm
- LBN42158	420 mm	1580 mm	450 mm

Measurements are in millimeters.

## LENTA HIGH MEETING GROUP

### DIMENSIONS

	Depth	Width	Height
- LNB80160	800 mm	1600 mm	1050 mm
- LNB80170	800 mm	1700 mm	1050 mm
- LNB80190	800 mm	1900 mm	1050 mm

Measurements are in millimeters.
