

LIA-P FOUR-LEGGED

Technical Data Sheet

LIA-P FOUR-LEGGED

Designer: Z Design Team

The Lia-P family features curved lines, which add a sense of movement and dynamism to any space. The Lia-P family offers a variety of leg and color options, making it a versatile and functional addition to offices and waiting areas.

DESCRIPTIONS

STRUCTURE

Metal Legs: The legs are made from DKP (deep drawing steel) sheets, which have been extruded using special molds to form an oval profile measuring 30x15x1.5 mm. These metal legs are coated with a textured (rough) powder paint, applied in a thickness of 90 microns. This finish ensures durability and a long-lasting appearance.

MECHANISM

A rotating mechanism is integrated beneath the seat, consisting of a metal plate with a diameter of 45 mm, allowing the seat to swivel in the desired direction. The legs, made from 30x15 mm metal profiles, are welded to a 200x200x5 mm metal plate, which houses the rotating mechanism.

SEAT

The seat is constructed from 8 mm thick raw MDF (Medium-Density Fiberboard) and is padded with 2 cm thick foam with a density of 25 DNS. Additionally, the seat includes a 3 cm thick foam layer with a density of 28 DNS, which is upholstered in fabric or synthetic leather to provide a comfortable sitting experience.

The backrest frame is made from a combination of 12 mm diameter transmission rods and 20x5 mm metal plates. Over this frame, polyurethane foam is molded to create the backrest shape. The foam is further laminated with a 10 mm thick layer for added comfort. The exterior of the backrest is covered with a 3 mm thick laminated fabric or synthetic leather.

ACCESSORIES

Foot Glides: The contact points between the metal legs and the floor are fitted with plastic foot glides. These glides, measuring 30x15 mm, are designed to fit securely into the oval profile of the legs, ensuring stability and protecting the floor.

USAGE AREA

The Lia-P Four-Legged chair is designed for use in indoor environments such as workspaces and meeting rooms.

DESIGNER / COLLECTION

The Lia-P product group was designed by the Z Design Team as part of the 2022/2023 collection.
