

PEBL

Technical Data Sheet

PEBL

Designer: Selami Gündüzeri

The design concept for the Pebl ottoman family is inspired by pebbles, one of nature's simple yet elegant elements. Pebl can be used as a single module or, depending on the space's size, the modules can be combined to create different sizes, offering flexibility. The varied sizes of the ottomans reflect the diversity of pebbles, providing both comfort and visual richness. The soft seating surfaces prioritize comfort while the semi-organic form that emerges when modules are combined reflects nature within your office.

DESCRIPTION

METAL LEGS

The legs, which make contact with the floor, are made from 30x10 mm metal sheet.

WOOD STRUCTURE

The framework of each module of Pebl is made from 12 mm thick plywood, formed with pressing, and 3 mm thick Duralit material.

The back module framework is also made from 12 mm thick plywood and 3 mm thick Duralit material.

UPHOLSTERY

The upholstery consists of 8 cm thick 35 HR foam and 1 cm thick 35 HR foam. The upholstery is fabric-covered. The back module upholstery consists of 5 cm thick 35 HR foam and is fabric-covered. For the seating modules, 1 cm thick 35 HR foam is used. The upholstery is fabric-covered.

COFFEE TABLE

The coffee table consists of an 18 mm thick melamine table surface over a fabric-covered frame.

USAGE AREA

The Pebl product group is designed for indoor environments such as working areas and waiting areas.

DESIGNER / COLLECTION

The Pebl product group was designed by Selami Gündüzeri for the 2025/2026 collection.

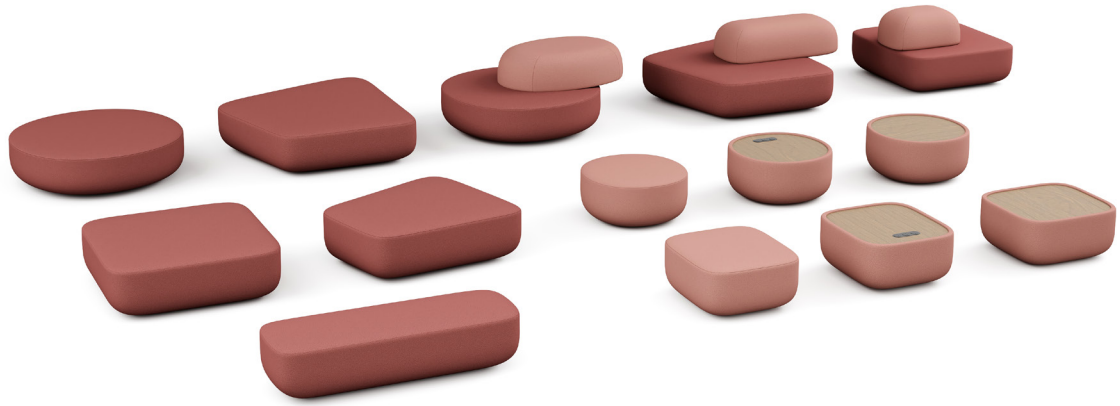

MATERIAL CATALOG

Zivella's material catalog, which includes wood, metal, fabric, and synthetic leather, can be accessed via the QR code below.
