Technical Data Sheet

## PHASE WAITING GROUP

Designer: Alp Nuhođlu

Waiting has never been this comfortable.

With its modular structure and options with or without tables, the Phase family offers solutions tailored to the needs of waiting areas, facilitating communication in shared spaces.

### EXPLANATIONS

---

#### WOODEN STRUCTURE

The wooden frame of Phase, consisting of modules, is made from second-grade kiln-dried beech wood. Phase consists of corner, middle, and pouf upholstered modules and table modules.

#### METAL STRUCTURE

The metal legs are made from 1.5 mm thick DKP steel, sized Q25 mm. The metal crossbars are made from 1.5 mm thick DKP steel, sized 40x40 mm.

#### UPHOLSTERY

The backrest of the product uses 5 cm thick foam with 35 HR density. The seat of the product uses 8 cm thick 35 HR foam with 60 gr fiber.

#### TABLE

The table top is made from melamine-coated particle board material, and the table base is made from 5 mm thick DKP steel, sized Q400 mm.

#### ACCESSORIES

Feet: Adjustable plastic bingo feet are used on the surfaces that come into contact with the floor.

#### USAGE AREA

The Phase Waiting Group is suitable for use in hotels, shopping malls, hospitals, and office waiting areas. It offers the ability to be tailored to different spaces, dimensions, and functions in interior design projects. The Phase Waiting Group provides dozens of combination and product options with three different seating modules and table modules.

#### DESIGNER / COLLECTION
